

Preparing for the Workplace of the Future

PROMOTING THE INTEGRATION OF THE WORKFORCE WITH AUTOMATION & ARTIFICIAL INTELLIGENCE

of the APAC workforce anticipate their company will **increase its investment** in automation or artificial intelligence (AI) in the next 2 years.

They believe investment will mainly focus on:

Operations

Analytics

Information Technology

However, the majority of APAC workforce expect that **only a small proportion** of staff will be replaced.

Even more so in...

of APAC respondents believe 25% or less of the workforce will be replaced by automation and AI.

We propose the following **TOTAL INTEGRATION** framework to promote the integration of workers with automation and AI at the workplace.
